

## The Grave

A snap of pain  
Left this life  
She screams crying  
Fiancée, soon my wife  
Soon became never  
On my grave  
She will cry forever  
I stand besides her  
She cannot see  
I speak to her  
Her tears reply to me  
I hold her tight  
She cannot feel  
Day and night  
She cries to me  
She rests her head  
Eyes tearfully closed  
On my grave silently  
I thought she dozed  
She thought I'm lonely  
My love joined me.
